

## I Knead You

Chevy

There's nothing more that I wish to do  
You make me purr when I'm feeling blue  
Be it rain or a sunny day  
Your lap is my favourite place to stay  
You know what I knead

I knead you  
I knead you

And I know that you can't hear me say  
The words that tell you I am here to stay  
But I hope that you see  
That I need you
