

# LDR

Chevy

I know its hard  
To keep in touch with me  
All the time

But the only way  
We can communicate  
Is if we're both stuck online

I gotta keep it in  
All these feelings  
They're always on my mind

But your lack of sympathy  
Don't make this easy  
Just tell me it'll be alright

In this LDR  
Even though you're far away  
Please don't forget about me  
I'm waiting  
For your loving to hold  
Hopefully it won't be for long

I know that its been getting late  
But I still wanna stay on call  
See we used to talk all through the night  
But now you act its a chore

I'm begging you please  
Can't you see  
You're always on my mind

But your lack of sympathy  
Don't make this easy  
Just tell me it'll be alright

In this LDR  
Even though you're far away  
Please don't forget about me  
I'm waiting  
For your loving to hold  
Hopefully it won't be for long
