

Throw A Fit

Chevy

Three steps backwards
Every way I go
And I'll be outrageous
And liven up the storm

Throw a fit
Go change the plan
And don't stay mad
Let her rip
Here to take
The good and bad
My wish is
To try and let
What's in the past
Lay to rest
I promise
That this love will last

In sun rays
I'm falling down down down down again
Ain't that love?
I make a wake wake wake where I land
A smooth lake
I'll take my time then head on back to where it's warm
And stay golden
Been there since the beginning until the end
Now I know how to feel it
But I hate to admit it to you

All my life something just out of reach
Winds up in a song
But by the time I get my pen to paper
Every word is gone

Throw a fit
Go change the plan
And don't stay mad
Let her rip
Here to take
The good and bad
My wish is
To try and let
What's in the past
Lay to rest
I promise
That this love will last

In sun rays
I'm falling down down down down again
Ain't that love?
I make a wake wake wake where I land
A smooth lake
I'll take my time then head on back to where it's warm
And stay golden
Been there since the beginning until the end
Now I know how to feel it
But I hate to admit it to you
