

Drift Away

Cheyenne Kimball

All the times that i fall drift away
All these lies i've been told i will say
Found a reason for the things that you say
Now I see now so they all fade away

Seen clearer days (I've found every today)
Dreaming of you everyday
And I tell myself that I will be ok
And I can't believe I ever walked away
And I'll take my time until I get it right
And I wanna take it back someday

All the times that I found drift away
All these lies I've been told I will say

Seen clearer days (I've found every today)
Dreaming of you everyday
And I tell myself that I will be ok
And I can't believe I ever walked away
And I'll take my time until I get it right
And I wanna take it back someday

Seen clearer days (I've found every today)
Dreaming of you everyday
And I tell myself that I will be ok
And I can't believe I ever walked away
And I'll take my time until I get it right
And I wanna take it back someday

Seen clearer days (I've found every today)
Dreaming of you everyday
And I tell myself that I will be ok
And I can't believe I ever walked away
And I'll take my time until I get it right
And I wanna take it back someday
And I wanna take it back
Drift Away
And I wanna take it back someday
