Drift Away

Cheyenne Kimball

All the times that i fall drift away All these lies i've been told i will say Found a reason for the things that you say Now I see now so they all fade away

Seen clearer days (I've found every today) Dreaming of you everyday And I tell myself that I will be ok And I can't believe I ever walked away And I'll take my time until I get it right And I wanna take it back someday

All the times that I found drift away All these lies I've been told I will say

Seen clearer days (I've found every today) Dreaming of you everyday And I tell myself that I will be ok And I can't believe I ever walked away And I'll take my time until I get it right And I wanna take it back someday
