

## My Broken Heart

Chiara Civello

Alone under the stars  
Alone with my guitar  
I'm about to take all that love can you give  
inside my broken heart

Don't tell too many lies  
Don't blame the moon and please don't cry  
I'm about to take all that love can you give  
From you, my broken heart

I only see blue moons  
When I could see your eyes  
This song's for you  
From a broken heart  
Just sing along  
Under the stars
