

## What About Me

Chic

Now you got yours what about me  
I gave my love don't you see  
Now you got yours what about me  
I gave my love don't you see

Loving you somehow I feel cheated  
I ask is this the way to be treated  
You take what you want  
Then you stroll out the door contented  
Used me, abused me  
Knocked down and walked all over me

Now you got yours what about me  
I gave my love don't you see  
Now you got yours what about me  
I gave my love don't you see

When we first met I thought we were gonna be  
The greatest love of all time  
Oh what a fantasy  
I put faith in you and you shattered my dreams completely  
Used me, abused me  
Knocked down and walked all over me

Now you got yours what about me  
I gave my love don't you see  
Now you got yours what about me  
I gave my love don't you see
