

Crazy Idea

Chicago

In the wee small hours we would pass the time
You were just a confidant of mine
I'd tell you my secrets (I'd tell you my secrets)
You'd tell me yours (you'd tell me yours)
No problem in this world
We couldn't cure

Suddenly a frozen fire, came to life
And took us higher
Then I had a crazy idea
Straight from heaven, down to earth
Falling in love is a crazy idea
This could be crazy enough
Crazy enough, to work
Suddenly a frozen fire
Came to life and took us higher

This could be crazy enough
Crazy enough, to work
This could be crazy enough, crazy enough

Girl, I searched the whole world over, just to find
You were more than just a friend of mine
Now we're both so ready (both so ready)
You know it all feels right (it all feels right)
Sometimes the obvious one
Is hiding in plain sight

Then I had a crazy idea
You might think I've gone berserk
Falling in love is a crazy idea
This could be crazy enough
Crazy enough, to work

Then I had a crazy idea (it all feels right)
This could be crazy enough
Crazy enough, to work
Falling in love is a crazy idea
This could be crazy enough
Crazy enough, to work
