

Firecracker

Chicago

Your love is all I need
Sweet music heart to heart every day I breathe
With just one look you set me free
From all the emptiness inside of me

Now that I've found you, I can't let you go, no no
There's just one word that fits you head to toe, baby

Firecracker
Foxy little heart attacker
You know how to light me up, baby
You blow my mind
Firecracker
I'm the lucky benefactor
And there's nothing I won't do, baby
To make you mine

You know you're so damn bad
Hot mama caught my eye, knocked me off my feet
Stole my heart and now I'm so damn glad
You came along and made my life complete

Can't live without you baby, that's no lie
I'm gonna love you till the day I die baby

Firecracker
Foxy little heart attacker
You know how to light me up, baby
You blow my mind
Firecracker
I'm the lucky benefactor
And there's nothing I won't do, baby
To make you mine

No one else could ever be
Even close to what you mean to me
Always remember
I'll love you forever
And I promise I'll never
Ever let you go

Firecracker
Foxy little heart attacker
You know how to light me up, baby
You blow my mind
Firecracker
I'm the lucky benefactor
And there's nothing I won't do, baby
To make you mine

Firecracker
Foxy little heart attacker
You know how to light me up, baby
You blow my mind
Firecracker
I'm the lucky benefactor
And there's nothing I won't do, baby

To make you mine
