

# If This Is Goodbye

Chicago

I know  
Just a bunch of crazy kids  
Look at all the things we did  
Never thought it'd end like this  
Wake up  
Playing in the high school band  
Never really had a plan  
Made it to the promised land

So here's a toast  
To me and you and every single show  
Cheers a toast  
To living fast but always dancing slow  
Here's a toast  
To saying yes whenever I said no

If this is goodbye  
Let's take one more shot for the memories  
Life's too short to be enemies  
And if this ends tonight  
You can save your tears for the other guys  
I'll see you in another life

I know, every story has to end  
We may never comprehend  
What a crazy ride it's been  
Oh no  
We may never be best friends  
For a couple hours we can  
For a couple hours pretend

So here's a toast  
To me and you and every single show  
Cheers a toast  
To living fast but always dancing slow  
Here's a toast  
To saying yes whenever I said no

If this is goodbye  
Let's take one more shot for the memories  
Life's too short to be enemies  
And if this ends tonight  
You can save your tears for the other guys  
I'll see you in another life

Goodbye, and maybe if the stars align  
I'll see you in another life  
You're missing all the tears we'll cry  
We have one more night so

If this is goodbye, yeah  
Let's sing one more song for the memories  
Life's too short to be enemies  
And if this ends tonight  
You can save your tears for the other guys  
I'll see you in another life

If this is goodbye  
Let's take one more shot for the memories  
Life's too short to be enemies  
And if this ends tonight  
You can save your tears for the other guys  
I'll see you in another life

Goodbye, and maybe if the stars align  
I'll see you in another life  
You're missing all the tears we'll cry  
We have one more night  
Goodbye
