

# Only You

Chicago

Hold me forever  
Whisper the words I've waited so long to hear  
Love's sweet surrender  
Steal's an embrace and kisses away the tears  
Lookin' back down the road of love  
We can still feel the heartache  
Pain and joy of an unrelenting love  
Hold us together

[CHORUS:]

Only you  
You've got control  
Only you  
You've got the key to my heart  
Only you  
You've got control  
Need your love, take me forever  
Sad empty faces Faded away when I fell in love with you  
True love erases  
Fear and the doubt not knowing  
We'd see things through  
So in love, unaware of time  
In a world of illusion  
We fell in love until the end of time  
True love, forever

[CHORUS]

Lookin' back down the road of love  
We can still feel the heartache  
Pain and joy of an unrelenting love  
Hold us together

[CHORUS]
