

She's Right

Chicago

Uptown, downtown, New York, LA
Somehow, somewhere, some way
All night, all right, all night and day
She's right next flight we'll run away

We've gotta take this situation
And bring it back to solid ground
How long have I been with you?
Together we can turn this back around

Uptown, downtown, New York, LA
Somehow, somewhere, some way
All night, all right, all night and day
She's right next flight we'll run away

She's always been the one that counted
Despite the crazy talk we hear
She gets which way the wind is blowing
We've gotta try 'cause I see heaven right here

Independent, she knows what she wants
Drop dead intelligent, no time for small talk
A natural beauty she's all that I need
She's right no fight, that's the way it's got to be

Uptown, downtown, New York, LA
Somehow, somewhere, some way
All night, all right, all night and day
She's right next flight we'll run away
Uptown, downtown, New York, LA
Somehow, somewhere, some way
All night, all right, all night and day
She's right next flight we'll run away
Uptown, downtown, New York, LA
Somehow, somewhere, some way
