

Show Me the Way

Chicago

Flying so high
Feeling so low
Fill my empty heart
Don't say no

Can I get through this night, with some lovin' to show?
Won't you show me the way to go? I don't know

Won't you open your eyes?
I know you really care
You see these games you play
They're just not fair

After all the good times and secrets we've shared
Won't you show me the way to go? I don't know

I wanna take my place
I wanna take my place
I wanna take my place with the loved ones
With the loved ones

Well, I still can't see
How things were meant to be
Love me even for one day
I'll treat you like a lady

In my heart you'll stay forever you know
Won't you show me the way to go? I don't know

Marching into your heart
Marching into your heart
Marching into your heart, yeah, yeah
...
