

Oxygen

Chicane

You're all I wanted
And I tried hard not to let you down
And I hope you feel it
Cause I can't see

If you're feeling lonely, yeah
And you need someone to calm you down
I could be around now
Anytime, just come to me

I know sometimes
We're caught in the lights
I feel it sinking in
Lets start right now, I couldn't say goodbye
I wanna start over again
You're my oxygen

If you're feeling lonely, yeah
And you need someone to calm you down
I could be around now
Anytime just come to me

I know sometimes
We're caught in the lights
I feel it sinking in
Lets start right now, I couldn't say goodbye
I wanna start over again
You're my oxygen
