

# Dark Star

Chicano Batman

The war is here  
Spread by fear  
Mob is ruling  
With senseless killing  
Darkness living deep inside of  
What I see  
Is you against me  
Darkness bleeding deep inside

I'll knock down the wall now  
This room can't hold it all  
How can we be who we are?  
This is life living under the dark star

America  
Inside of us  
Venom runs deep  
It's what we all keep  
Darkness seeping deep inside of

I'll knock down the wall now  
This place can't hold it all  
How can we be who we are?  
In this life, living under the dark star

I'll knock down the wall now  
This place can't hold it all  
How can we be who we are?  
In this life, living under the dark star

In this life, living under the dark star  
This is life living under the dark star
