

## I Know It

Chicano Batman

Should I call her now?  
It's been so long I don't know how  
It was six months ago  
I told her we were through  
Right out of the blue  
What was wrong with me?

I know it  
I feel it is true  
I don't know why  
My heart beats for you

I show it  
I feel it inside  
It's so right  
My heart beats for you

I missed you all this time  
I was so busy rewinding you into my mind  
Now I find myself on the road  
We used to drive before  
Now I need you more  
Then I start to feel  
That there is some hope  
It will help me cope  
Fate will prevail and we will be together

I know it  
I feel it is true  
I don't know why  
My heart beats for you

I show it  
I feel it inside  
It's so right  
My heart beats for you

I know it  
I feel it is true  
I don't know why  
My heart beats for you

I show it  
I feel it inside  
It's so right  
My heart beats for you
