

Moment Of Joy

Chicano Batman

I'm like a cloud shape shifting everywhere
Above the ground I'm flying through the air
Right past the crowd my heart is screaming loud

This moment of joy is thrilling me
This moment of joy is keeping me high
This moment of joy is the light that shines everyday

Me and you, here to catch a view
Rolling hills the dawn of something new
In the groove, wind is in my sails
Like an eagle moving in a flash
Her light that shines is infinitely precious

This moment of joy is thrilling me
This moment of joy is keeping me high
This moment of joy is the light that shines everyday

I know that I'm happy
I know that I'm happiest
When I feel the sunshine
Seeping into my heart yea
This moment of joy is thrilling me
This moment of joy is keeping me high
This moment of joy
This moment of joy
