

## I Can Hear You Calling

Chicory Tip

I can hear you calling, call my name out loud  
Know that makes me wonder, you used to be so proud  
Sudden realisation gonna leave me now, that's why  
I can hear you calling, telling you goodbye  
Gonna get no answer, I'm telling you goodbye

I can hear you calling

We can't get together, think you're just too good  
You can keep on calling me till it's understood  
You got to learn the hard way, I think you know it's true  
You got to get to get to get what you got coming, I know it's true  
Don't you look so sorry, there's nothing I can do

I can hear you calling, I can hear you calling

I can hear you calling you know that ain't so right  
You can keep on calling me till you see the light  
I don't need aggravation a little bit all alone  
You, you do wanna take all the baggage along  
Call me if you want to, just don't stay too long

I can hear you calling, I can hear you calling  
I can hear you calling
