

Memory

Chicory Tip

People demonstrate in Trafalgar Square
Preaching wrong from right sing your praises there
People laugh at me, tell me not to worry
Time's our enemy, we just can't see

Finding other planets, well that's up to you
Political solution is one point of view
There's a future on earth, time to see a rebirth
If only man we unite as one

Ooh, my memory sees strange things in time it re-arranges
Forseeing the future and the past, the years of countless ages
