

Pride Comes Before A Fall

Chicory Tip

Walking around with your head in the air
You'd better watch it, girl, you better beware
Cheating's a game that you taught me to play
So better lend an ear and hear what I say

You'll find that pride comes before a fall
And you're heading for trouble, heading for trouble
Pride comes before a fall
It'll burst like a bubble, burst like a bubble

How many times have I told you before
You'd better listen, girl, listen for sure
Cheating on me it's the name of the game
So don't be too surprised if I'm doing the same

You'll find that pride comes before a fall
And you're heading for trouble, heading for trouble
Pride comes before a fall
It'll burst like a bubble, burst like a bubble

There's none so blind as those who cannot see
And, girl, it's time you saw what you're doing to me

You'll find that pride comes before a fall
And you're heading for trouble, heading for trouble
Pride comes before a fall
It'll burst like a bubble, burst like a bubble

You'll find that pride comes before a fall
And you're heading for trouble, heading for trouble
Pride comes before a fall
It'll burst like a bubble, burst like a bubble

You'll find that pride comes before a fall
