

## Take Your Time Caroline

Chicory Tip

I know how you feel  
It seems unreal, this game we play  
You're a little scared  
You never dared to act this way

So take your time, Caroline, Caroline, take your time  
Though it's late, I'll wait for your starshine  
Take your time, Caroline, hold your breath, count to nine  
You're doing fine now you're mine, my Caroline

I wish I like you  
Only a few daydreams ago  
So trust me when I say  
After today our love will grow

And take your time Caroline, Caroline, take your time  
Though it's late, I'll wait for your starshine  
I've got time, Caroline, hold your breath, count to nine  
You're doing fine take your time, my Caroline

So never mind Caroline, Caroline take your time  
Though it's late, I'll wait for your starshine  
Take your time, Caroline, hold your breath, count to nine  
You're doing fine now you're mine, take your time

So never mind Caroline, Caroline take your time  
Though it's late, I'll wait for your starshine  
Take your time, Caroline, hold your breath, count to nine  
You're doing fine now you're mine, take your time

So never mind Caroline, Caroline take your time  
Though it's late, I'll wait for your starshine
