

## Back And Forth

Chiddy Bang

Back and forth, now I'm back and forth  
Back and forth, now I'm back and forth  
Back and forth, back and forth  
Back and forth, now I'm back and forth  
Back and forth, now I'm back and forth (Back)  
Back and forth, now I'm back and forth (Back)  
Back and forth, back and forth  
Back and forth, now I'm back and forth

Young Chid, now I'm back and forth  
On the road, tryna grab the torch  
Stunt on me, I never have remorse  
Reroute player, that's the course  
I'm the one who get the job done  
Unemployed, they ain't got none  
Feel like Nas, call me God's son  
Call me Tom Cruise, I'm the top gun  
Back and forth like a tennis match (Back)  
Tell the label they can send a plaque  
Keep the change, tell 'em send it back  
I'ma start to go, then I finish that  
This is everything I dreamed of  
Now a hater gotta meanmug  
They ain't thinking I could beam up  
Shocked how I'm the team plug  
Stay woke, get your dreams up  
If you broke, tell 'em scheme up  
I can see your whole team scrubs  
They hate now, but I seen love  
Back and forth, now we on a mission  
Bobby Brown, it's a new edition  
Try to tell 'em, they refuse to listen  
They ain't stars, they just used to glisten

Back and forth, now I'm back and forth  
Back and forth, now I'm back and forth  
Back and forth, back and forth  
Back and forth, now I'm back and forth  
Back and forth, now I'm back and forth (Back)  
Back and forth, now I'm back and forth (Back)  
Back and forth, back and forth  
Back and forth, now I'm back and forth
