

Whatever We Want

Chiddy Bang

Young kid tryna make that grown man dough
No navigation, but there's nowhere that I can't go
Shit, this beat not like cambo
And watch that Xampoo change up the tempo
We be in the car rollin' crack a window
Shit you always feel good off the endo
And I made this for them Hollywood bimbos
And do I really need a mothafuckin' intro?
Show up to the venue
The food is on the menu
And if it ain't the menu, then by out what they sent you
They hook us up with sour
Performing in a hour
And gimme 23 more robby Jack Bauer
Hop in the line and we cut to the front
Then I proceed to have a shorty roll me a blunt
I say that if you're swelly you can never be stopped
I'm in the kinda mood just to get whatever I want

It's whatever we want
Now, we could do whatever we want, we could get whatever we want
It's whatever we want
Now, we could do whatever we want, we could do whatever we want
It's whatever we want

Whatever we want

We could do whatever we want, we could get whatever we want
It's whatever we want

Give it here
Give it here
Give it here
Give it here
(Yea)
Give it here
(Yea)

I said who down to get drunk
Smelling through Mr. Le Pew
I gotta pound of that skunk
Yea and I think I could get anything that I want
Shorty she got a fatty I could see it from the front
The bottles is a must
The models should be touched
And if I get her tipsy she'll be swallowing my nuts
She wasn't around when I was following the bus
I don't care if she down to do what I say without a fuss
Yea tonight could get a little outrageous
Me and my niggas just be picking our favorites
Yea, right off the ground I get her
Up for the evening and she down for whatever

It's whatever we want
Now, we could do whatever we want, we could get whatever we want
It's whatever we want
Now, we could do whatever we want, we could do whatever we want

It's whatever we want

Whatever we want

We could do whatever we want, we could get whatever we want
It's whatever we want

Give it here

Give it here

Give it here

Give it here

Give it here

Bad Boy Xaph
