Mix it up with something, mix it up with something
Mix it up with something, mix it up with something

Took my car, I mixed it on them Forgi's
Took my gun, mixed it with a fucking orgy, that's a long clip
With a lot of fucking bullets

And you know it's mines, you know I spend it

Balling no NBA, I ain't humping niggas
But I get that pump and pump a nigga
Shoot him in his temple, God forgive him

These fake trappers gon' make me faint
I'm on my way to the bank, hahaha

Mix it up with something, mix it up with something
Mix it up with something, mix it up with something
I took a Xan, I mixed it up with something
It was that Hen, I mixed it up with something
Mix it up with something, mix it up with something
Mix it up with something, mix it up with something
I took them bands, I mixed it up with something

These niggas they don't like me, thought I'm mixing up or something
Switching up or something, but I'm just getting money
Getting to these hundreds, fingering this money
