

## Rub

Chief Keef

Sosa, baby  
GBE, baby  
(Pull up and spark it out)  
(You can smell from outside the outside)  
(You say you know me, but you don't know, what you talkin' 'bout)  
Justo, roll up a blunt, got a stick same size as my son  
Depending on how you run, it's a long time 'til it get done

You can sell that whole ton, depending on how you come  
And you can dunk on Shaq, depending on how you jump  
Wonder how you can see, depending on how you be  
And I made her go up, and I did was pull out a P  
Before I started my car, it was peace, now the neighbours can't sleep  
Water with me, no tub, shorty lookin' like he a duck  
In my Avon voice, he a dub, she like when her booty get rub  
Ok, start listening up, lemme go count these bucks

She like when her booty get rub, she like when her booty get rub  
She like when her booty get rub, she like when her booty get rub  
She like when her booty get rub, she like when her booty get rub  
She like when her booty get rub, she like when her booty get rub  
She like when her booty get rub, she like when her booty get rub  
She like when her booty get rub, she like when her booty get rub  
She like when her booty get rub, she like when her booty get rub  
She like when her booty get rub, she like when her booty get rub  
She like when her booty get rub, she like when her booty get rub  
She like when her booty get rub, she like when her booty get rub
