

Darling

Chiiild

I know I wasted my breath when
All this shit was happening
Last year you're the only thing
That saw what I could've been baby

I was lost in the quicksand
And I was torched in the fire
You've got me on another planet
You are the best

You are the best of me, darling
You are the best of me, darling
You bring out the best of me, darling
You are the best of me, darling

I'll admit, I was hesitant
To get high on your essence
I gave up my relevance
'Cause you're the only thing that's relevant

I was lost in the quicksand
And I was torched in the fire
You've got me on another planet
You are the best

You are the best of me, darling
You are the best of me, darling
You bring out the best of me, darling
You are the best of me, darling
