

Hands Off Me

Chiiild

Don't take your hands off of me
Don't take these words too lightly
We can take things slow slowly
But no matter what
Don't take your hands off of me

Girl, I'm all about my business, yeah
You've been on your own mission, yeah
Let your body talk, I'm listening
Don't take your hands off of me
I swear that I can go the distance, yeah
Ask the Lord to be our witness, yeah
We don't need to ask forgiveness
When you don't care who's watching
And I don't care who's listening

Don't take your hands off of me
Don't take these words too lightly
We can take things slow, slowly
But no matter what
Don't take your hands off of me

Don't take your hands off of me
Don't take these words too lightly
We can take things slow, slowly
Don't take your hands off of me
