

Hell And High Water

Chiiild

My message in a bottle
Six meters from my eyelid
Shout circle and all I could do is
Watch over the horizon
I'm hoping I wake up one day
Hope I make it home to say "I love you" again

Should've never never never never left
I never ever ever ever got to tell you
I got a treasure for you but I never got to tell you where
But I been waiting

And I know soon I'll be drowning
Mr. Reaper
Is standing in the distance tonight
If you're out there
Tell them how I went through hell and high-
water just to feel alive
I could feel him
Mr. Reaper
Dissecting my connection to land
Hope they find me and talk about how
I went through hell and high-water just to feel alive

Come right up to my edges
Waves spitting from within me
And I couldn't, all I can do is
Watch over the horizon
Ah, hold me close, take mercy on me
Hope I make it home to say "You're perfect"

I'll be drowning
Mr. Reaper
Is standing in the distance tonight
If you're out there
Tell them how I went through hell and high-
water just to feel alive
I could feel you
Mr. Reaper
Dissecting my connection to land
Hope they find me and talk about how
I went through hell and high-water just to feel alive

I went through hell and high-water just to feel alive
