

# Into The Deep End

Chiiild

How we on ten, ten, ten  
Swimming upstream into the deep end  
We were just friends, friends  
Now we're crossing lines like we're here to offend

Oh, days and nights I think about you, oh  
Now you're here moments from our doom  
All the things, all the things we do, I'm  
Captivated by your body and all the rest

Lying naked in our bed like we just met  
Let your stresses hit the floor with your sundress  
Let your stresses hit the floor with your sundress  
Yeah  
Captivated by your body and all the rest  
Lying naked in our bed like we just met  
Let your stresses hit the floor with your sundress

We're swimming upstream into the deep end  
Yeah  
We're swimming upstream into the deep end

It's like you're doing this on purpose  
You know that you coming round's making me nervous  
I'm at your service  
I heard that you're doing well living your purpose  
I can't stop myself, I'm off balance  
Riding the turbulence  
Nothing compares to you, no

Oh, days and nights I think about you, oh  
Now you're here moments from our doom  
All the things, all the things we do, I'm  
Captivated by your body and all the rest

Lying naked in our bed like we both just met  
Let your stresses hit the floor with your sundress  
Let your stresses hit the floor with your sundress  
You're mine  
Captivated by your body and all the rest  
Lying naked in our bed like we both just met  
Let your stresses hit the floor with your sundress

We're swimming upstream into the deep end  
Yeah  
We're swimming upstream into the deep end  
We're swimming upstream into the deep end
