

How can I translate
Your light into words, my dear?
Heighten all your senses
I'm weightless, you're weightless
Take you under the sun, my dear
A state that transposes
Us into lotus
Weightless under the sun, under the sun

I don't wanna, I don't wanna, I don't wanna, I don't wanna, I d
on't wanna
Let this moment pass (Yeah)
I don't wanna, I don't wanna, I don't wanna, I don't wanna
Take you for granted, my dear
I'll take you all the places I've seen
Experience your senses, I want you
I want you, I want you, I want you, I want you
How can I translate?
