

Wasting Time

Chiiild

Sometimes I feel like I'm just sitting around, uh
Waiting for something to take over my mind
If you tell me I'm alright
I'll make love to you tonight
And I'll find my way back

I've been wasting time
Focused on the little games that run my mind
I should probably realize I need you
I've been wasting, wasting, wasting
I've been wasting time
I've been wasting time
Focused on the little games that run my mind
I should probably realize I need you
(I've been wasting, wasting time)
