

SHOW ME

CHIKA

Ooh, you got me feelin' somethin'
You must be real or somethin'
I done got used to the fake
I spend like every day around 'em
I can't even count 'em, there's a million different reasons
And I ain't even found 'em, but
But you, you work your magic on me, huh
This is a tragic story
I think we destined to end, maybe we better as friends, mm
Maybe we better as friends
But I'm willin' to try
So at least for tonight, yeah
Please don't take your time with me
This could be the end of the world
So quick is fine with me
I'm usually not that kind of girl
And if it all ends
At least you got to know me
At least you got to hold me
So if you love me, show me
