

## TAP

CHIKA

Don't want you to fall by the wayside  
Pick it up, drop it back down  
Call it gang sign, foreplay, stay tight  
Give you the lay right before the date night  
Knowing me we already ate right  
Girl what's your flavor? It tastes like love  
[?] face not up  
Going with it for me, you can do it honey  
'Cause your body my baseline drug  
Baby I cannot control my grip  
You pull me in when you roll them hips  
Know that you single and don't mind tips  
[?] bilingual and rode my lips  
I met an angel tonight in the wild and  
If I was able, I'd give her a child  
Tell all my secrets to gain your trust  
Give up my weakness to make you nut

Girl I know you get me  
Give in, won't you let me?  
Let me love you to sleep  
Baby I'm gonna make you tap out  
The way you roll impress me  
All your groans are sexy  
You love holy bless me  
And come and sit that on my lap, yeah

I'm on your body like lotion  
Rub me in every motion  
First thing you do when you wake up  
Treat me like daily devotion  
I wanna go for a swim, let me in  
I've been dying to drown in that ocean  
I do whatever you want  
Before you have a thought, I'm an expert at hosting  
How do you do this so well?  
Fuck it I'm under your spell  
Talk to me I get chills  
Moan for me and I melt  
Ketamine mixed with amphetamine  
How you my heaven while you are my hell?  
This my decision and if it's my prison  
I'm living like [?]  
Lock me up, you lucky I brought my cuff  
I love it when you talk so tough, shit  
I let you top me rough, I  
Don't wanna take shit slow, with  
Every smile I know, and  
Every touch I'm weak, girl  
You bring me to my knees, I feel complete

Girl I know you get me  
Give in, won't you let me?  
Let me love you to sleep  
Baby I'm gonna make you tap out  
The way you roll impress me  
All your groans are sexy

You love holy bless me  
And come and sit that on my lap, yeah  
Girl I know you get me  
Give in, won't you let me?  
Let me love you to sleep  
Baby I'm gonna make you tap out  
The way you roll impress me  
All your groans are sexy  
You love holy bless me  
And come and sit that on my lap, yeah
