

Like It Or Leave It

Chikinki

I let her on the inside and oh, I can't leave her alone
I caught a glimpse of her rose, no I can't leave her
alone

My bids for freedom went wrong cause I can't leave her
alone

I see my enemies go strong, but I can't leave her alone
No I can't leave her alone

And she said

Baby baby baby please like it or leave it

Baby baby baby please like it or leave it

Baby baby baby please like it or leave it

Baby baby baby please like it or leave it

Baby baby baby please like it or leave it

Just say no, oh just say no

I make it seem like life is a river streaming from my
heart

I stretched my car's by the road before I even start

I let you get inside and oh I can't leave her alone

I bleed her every moan, I can't leave her alone

No I can't leave her alone

And she said

Baby baby baby please like it or leave it

Baby baby baby please like it or leave it

Baby baby baby please like it or leave it

Baby baby baby please like it or leave it

Baby baby baby please like it or leave it

Just say no, oh just say no

Just say no, no, just say no

Like it or leave it, just say no

hey hey hey
