

As I Am

Childhood

There's no time at all
Why won't you tell me that I need you
Through her space I crawl
I really wanna be you

So tell me what you wanna do
And take me as I am
All the things that's left to lose
And try to understand

I won't fight at all
The floor's still hard enough to
Beat through girl
Through her space I crawl
I really wanna feel new

The night goes on and on
I'm changing all that I believe in
A faceless stare looks on
But you know what I'm really thinking

So tell me what you wanna do
And take me as I am
All the things that's left to lose
And try to understand

There's no time at all

So tell me what you wanna do
And take me as I am
All the things that's left to lose
And try to understand
