# Monitor

**Childhood**

Some of those scared, run scarce 'cos they know I'd fail
You know that feeling boy when you're always found
Some of those eyes outside couldn't wait a life
To another world but still everyone's crying

(On the streets where I grew up,
Its the Stranger I've become)
Monitor stop the way
Those innocent eyes remember
A public daze shows the way
To who you should be forever

One of these days, I'm giving way to the ground
Somebody's scared, what's there?
Just a lonely dream
Cos you answer to the middle, that's your way through it
Try something different but you still can't do it
Cos you answer to the middle, that's your way through it
Try something different but you still can't do it

Monitor stop the way
Those innocent eyes remember
A public daze shows the way
To who you should be forever

(On the streets where I grew up,
It's the Stranger I've become)
