## Childish Gambino

When we were coming down they said it was too soon  
I never had to lie no no no no  
We were coming down, they left us all alone  
Way to nowhere, nowhere. I know you've been around  
I feel you in and out, how are you?  
Do you sleep? Are you with me?  
We used to be unspoken  
Now everything is broken  
I'm a good son  
I'm a good son  
You're a good son  
You're a good son

Arlanda hotel to the bar  
Young girl with an accent with her back bent  
Ass out to the whole world  
We can buy it out for tonight  
Stepping outside for a light  
No coke, and I just smoke vapor, no papers  
Slow poke and I don't know about photos  
Let's go though  
How old are you?  
Saying that you never date older dudes  
That's why I never wanna say no to you  
The coldest dude to hold a groove with no kids  
Can't hold his goose  
I'ma walk out; wanna walk too?  
What about dude?  
Fuck it, I just wanna feel something

It took my like five minutes to figure out what voices those were on the phone  
But it figured it out...

Is it real, cause you're on live (4x)

I'm a freaky bitch  
I'm 5 foot 8. 390  
And I am a freaky bitch

Heathen  
It's a struggle just to keep breathing  
Existential asthmatic, puff puff pass addict  
Crafmatic, making moves but they sleeping on me  
We can kick it like it's FIFA, homie  
Nevertheless, I got that fresh like it was Crest  
Crying cause I'm stressed. TMJ or TMI, it's a lie that you're living  
I never understood the hate on a nigga's preference  
When every marriage is a same sex marriage  
Same sex everyday, monotonous  
Lost god never pray, forgotten us  
Lost love, never say just like our parents  
Too much power ain't enough power  
Brain splattered like I've fallen off a Watchtower  
Any anybody can walk into any Denny's  
And wait until I'm walking in it with a gun that they 3D printed and I finish it

Kinison said if you gonna miss heaven...  
Why do it by two inches?  
Old money and new bitches
