

Still Can't Sing But It Helps The Pain Pt. 2 (Interlude)

ChillinIT

That's just life, we love to sacrifice
I wish we had this right, fuck and leave you back at night
But yeah girl, that's just life, we love to sacrifice
I wish we had a right, I need you back at night
But Imma leave and let it go (go)
Smoking on my cigarette with the smoke
Yo, this ain't no punchline rap shit, girl
Nah yeah, I done this a lot of times
This is the first time, one time girl, Imma be here and apologize how this worked out
How we be heard and what was it worth and fuck, would it work now?
Did you leave me, did I leave you, I believe you
If you love me, girl I love you, fuckin' me too
So tell me, what the fuck should we do?
Yeah, what the fuck should we do?

(That's just life, that's just life, that's just life, that's just life, that's just life, that's just life)
