

# Always

Chilliwack

I ask you why must I be so sad?  
I won't need love to be glad  
I love whenever I can but you know  
It can't be that way always

The sunny scene came beneath the hills  
The wind is stilled  
Oh no, she don't blow for the morning  
She don't blow but you know  
It can't be that way always
