

# Lean On Me

Chilliwick

Oooohhh

We all need someone  
A friend who'll be there  
When things come undone  
Who's gon'na care

Don't keep it all locked up tight  
I'm going to be there  
Gonna be there

When you need someone to lean on  
Why can't that someone be me  
I have that same kind of feelin'  
Don't run and hide let it be

Some days go easy  
Some turn out wrong  
And if you feel lonely  
I can be strong

Don't keep it all locked up tight  
I'm going to be there

Gonna be there

Rainy days and lonely nights  
That seem to last for ever.. Never do  
Maybe we could turn the wrongs to rights  
To get together  
That's all I'm asking you

When you need someone to lean on  
Why can't that someone be me  
I have that same kind of feelin'  
Don't run and hide let it be

When you need someone to lean on  
Why can't that someone be me  
I have that same kind of feelin'  
Don't run and hide let it be
