

## Let It All Begin

Chilliwick

Standing outside by myself  
Trying to catch a ride home for free  
Broke and alone again  
Seems it only happens to me  
Quit school when my hopes were high  
Somehow they just disappeared  
Finding out that the city's a big place  
Dreams are turning into fear

When you going to find yourself  
Just hold on, big city  
I need more time to feel you  
When you going to free yourself  
I need more time  
Just to step inside your forbidden door

Let it all begin now, baby  
Take it on to the end  
Tired of being just a kid in the city  
Time is going to let me win  
Let it all begin now, baby  
Take it on to the end  
I know enough about sacrifice  
Now ain't you going to let me in

Looking inside of myself  
Trying to find the right part to play  
The role of a city boy  
Don't seem right today  
Back home where I once began  
Somehow it all looked more real  
Finding out that you don't have the power  
Change you from the way you feel
