

Nothin' To Do

Chilliwick

Oh my baby, oh my darling
I've been riding all night long
Oh my baby, oh my darling
I've been riding all night long
Now there's nothing to do but sit around and see
Feeling fine, feeling good through everything

I've been rocking and I'm rolling
Now it feels really good to be home
I wish that in all of my traveling
I could always be this stoned
'Cause there's nothing to do but sit around and see
Feeling fine, feeling good through everything

Every morning, in the morning
Sometimes I feel pretty low
But I don't let it get me down about me
I just lay back, take it real slow
'Cause there's nothing to do but sit around and see
Feeling fine, feeling good through everything

Oh drugged-out news, they're coming to get me
Oh they're coming to get me, I know
Babe, been waiting for the Grateful
They're waiting around the corner to surprise me
They won't get me, no no
'Cause there's nothing to do but sit around and see
Feeling fine, feeling good through everything
