

## Road To Paradise

Chilliwack

standing alone in the morning light  
fading away like a shadow  
one things clear and you know that it's right  
this is tomorrow  
and you tried and you tried and there's just no way  
and you fell like a fool for walking away  
now you've made all you're changes and what have you changed  
if you still had a chance would you do it again?  
on the road to paradise  
we can go, we can go I know it  
on the road to paradise  
we can go, we can go up to it  
sooooo  
standing alone at the turning point  
i try to lead, but to follow  
it's that first step that you take  
you gotta make up your mind  
cuz here comes tomorrow  
there's a place in your mind that will haunt you today  
but you know that in a while it will fade away  
and you know in time that you will understand  
and you see in the future a happier man  
on the road to paradise  
we can go, we can go I know it  
on the road to paradise  
we can go, we can go up to it  
on the road to paradise  
we can go, we can go I know it  
on the road to paradise  
on the road to paradise  
on the road to paradise  
on the road to paradise
