

## So Strong

Chilliwack

I want to live, want to give  
Want to take it to the top with you  
I know I'm never gonna quit  
I never will until we make it through

Everybody wants to try to tell you  
How to run your life  
You can throw them out  
And shut the door

You've got something written  
In your heart  
That's far beyond this little room  
This little town  
This little star

And it's so strong  
So strong  
So strong

Listen, you and I together  
We could trust each other  
We could blow them all away  
If I believed in you  
And you believed in me  
I know we could go anywhere  
That way

I don't want to follow all those  
Tired old traditionals  
I'd rather throw them out  
And shut the door

Everyone has something deep inside  
That's so original and right  
That you don't need to ask for more

And it's so strong  
So strong  
So strong
