## Chimaira

I am the bastard son The expendable one War is in my blood Rage is in my heart The lone wolf inside me No home, no family Just wanted serenity But you pushed, you pushed me You pushed me The lone wolf inside me Needs to be set free One by one I'll crush you all Day by day, destroy and dominate Blood, blood for blood Destroy, destroy and dominate Rejected by society The same one that created me And I, I don't care what you say anymore I am no longer your slave The lone wolf inside me Has finally been set free One by one I'll crush you all Day by day, destroy and dominate Blood, blood for blood Destroy, destroy and dominate Dominate One by one I'll crush you all Day by day, destroy and dominate Blood, blood for blood Destroy, destroy and dominate
