

Down Here On Earth

China Crisis

All things must pass, come to an end
Completely, disappear
Time passes by, it always has
And always, so suddenly

I don't know how it works
Down here on earth
Don't know how it works
Down here on earth

Looking round my room, I
Delayed my [?]
All I'm feelin' now is
Dreadful pain and sorrow
Time won't take you from me
Feeling healing powers
They conspire to help me
They conspire to help me

I don't know how it works
Down here on earth
Don't know how it works
Down here on earth

I don't know how it works
Down here on earth
Don't know how it works
Down here on earth

Down here on earth
Down here on earth
Down here on earth
