

# Here Comes A Raincloud

China Crisis

Watching the raincloud  
take over me  
watching my people  
what do I see  
nothing but hardship  
the poorer we are  
we're living in danger  
of going to far

So here I am  
can you understand  
so much to live for  
in so little time

So many places  
all I have seen  
watching the sunrise  
they dream and they dream

Watching the raincloud  
take over me  
watching the sunset  
the end of a dream
