

No More Blue Horizons

China Crisis

Fool, fool, fool
That's what I am
Because I close my eyes
To everything I can

I open up my arms
I open up my loving arms
You kill me with your charms
And it happens all the time

Time and time again
Can't hide this pain

I lie awake at night
And hear you call his name

I open up my arms
I open up my loving arms
You kill me with your charms
And it happens all the time

Fool, fool, fool
That's what I am
Because I close my eyes
To everything I can

I open up my arms
I open up my loving arms
You kill me with your charms
And it happens all the time
