

The Soul Awakening

China Crisis

Faster than a falling star
ever so close and yet so far
and I believe in everything
and I believe in everyone

Under the weather
we should be over the moon
the soul awakening

Forest hillor mountain grey
dreamy weather to make you stay
and I believe in everything
and I believe in everyone

Under the weather
we should be over the moon
the soul awakening

Firelight, this promised land
golden beach and yellow sand
and I believe in everything
and I believe in everyone
