

CAPS LOCK

Chinchilla

Now I only speak in caps lock
Broke the button on my laptop
Now I only speak in caps lock
'Cause I got the taste of blood, now I can't stop

Silence
My tongue is made of leather
Only dream of verbal violence
But I've been cracking under pressure, oh
Sick and tired of dumbing down my innovation
I plead the fifth in every case and (Silence)
And take the battery out the censor
I'ma, I'ma, I'ma

I'm a go out with my piggy bank
And get "I'm not finished" tattooed on my hand
I'ma pipe up like a monster truck
If you interrupt, bitch, here I am
I'ma staple my top lip to a megaphone
Maybe that'll help them hear when I say, "No"
I don't care who the fuck you are
Beat my chest like dadada, dadada, dadada

Now I only speak in caps lock
Broke the button on my laptop
Now I only speak in caps lock
'Cause I got a taste of blood, now I can't stop
Now I only speak in caps lock
Broke the button on my laptop
Now I only speak in caps lock
'Cause I got the taste of blood, now I can't stop

Lamb, little lamb did you—
Did you think I was too dumb to understand, did you?
Did you think I wouldn't figure out a plan, did you?
Did you think 'cause I'm a woman you're a man, did you, did you, did you?

I'ma go up with my piggy bank
And get "I'm not finished" tattooed on my hand
I'ma pipe up like a monster truck
If you interrupt, bitch, here I am
I'ma staple my top lip to a megaphone
Maybe that'll help them hear when I say, "No"
I don't care who the fuck you are
Beat my chest like dadada, dadada, dadada

Now I only speak in caps lock
Broke the button on my laptop
Now I only speak in caps lock
'Cause I got the taste of blood, now I can't stop
Now I only speak in caps lock
Broke the button on my laptop
Now I only speak in caps lock
'Cause I got the taste of blood, now I can't stop

Now I only speak in caps lock
Broke the button on my laptop

Now I only speak in caps lock
Broke the button on my laptop
Now I only speak in caps lock
'Cause I got the taste of blood, now I can't stop
